## Information

1. On April 2, 2014, Ryan Bundy showed up at 'R' Livestock in Monroe, Utah at 11:41 (MDT). Ryan Bundy and approximately 10-12 supporters entered the auction. There were approximately 30-40 protesters outside. Their disturbance temporarily delayed the auction while the auction yard owner awaited the arrival of the Sevier County Sheriff Office. The Sheriff's Office showed Ryan Bundy and the protesters where they could legally protest. The sale resumed after an approximate 45-60 minute delay. Sevier County Sheriff Nathan Curtis spoke with Ryan Bundy about his intentions and asked why they didn't just gather their cattle. Bundy stated the cattle were wild and during a recent round-up, one of their horses were gored and killed. Bundy claimed ownership of the cattle and stated if he couldn't stop them at the border, then he "will take them by force here." The Sheriff offered Bundy an opportunity to visit with him at his office. Bundy arrived at the Sheriff's office later in the day, but the Sheriff was unavailable due to meetings with the County Commissioners. 'R' Livestock mentioned that they have received many negative telephone calls regarding Bundy's cattle. They have resorted to letting the answering machine pick up most of their calls during business hours.
2. Some of Bundy's family advertised that 80 protesters were at the R livestock auction. They mentioned protesting at this auction yard next week. There is no information regarding protests occurring in Nevada as of today.
3. Some of Bundy's family members are pleading for supporters to call and harass 'R' Livestock. They have provided lists of the companies that advertise with 'R' Livestock and suggest people call those companies and harass them as well.

## Dan's Demobilization Order (Sent via email today at 14:41)

FOR ALL PERSONNEL:

This email and message from the command staff will serve as your official demobilization order. Please adhere to the schedule and check in with your team leaders as designated.

Command thanks you for your efforts during this operation. Your continued professionalism is appreciated at all levels within the Department of Interior. We recognize the difficult events we were confronted with on Saturday April 12, 2014. In the wake of those events, command worked diligently to ensure we had everything needed for a future criminal case against those who were involved in disrupting our mission through the threat of violence. We thank you all for taking the necessary time to prepare written reports, download video evidence, and participate in witness interviews. We also recognize how quickly you were able to adapt and handle new missions and threats to successfully conclude this operation. We provided immediate access to EAP and CISM for those who wanted to talk about the events, and we would encourage staff to contact EAP or follow-up with CISM as needed. Command wants you all to know this is not the last chapter, and we will work with our federal partners to ensure justice is served in this matter.

All staff commuting to your home units will stay in communication with their respective Team Leader. It is recommended a telephone call or text message be placed/sent every 4 hours to your Team Leader, until you reach your respective residence. Team Leaders will compose an email to Kelly Cole; [kccole@blm.gov](mailto:kccole@blm.gov) listing their respective team members and confirming all have made it to their home units without incident. If any person has any issue while in travel status they are to contact Eric Boik directly at [eboik@blm.gov](mailto:eboik@blm.gov) or (385)226-1581. Team Leaders – it's imperative you track all of your staff and keep command informed. It's equally important you provide notification once your entire team has reached their home units.
